

## **INSTRUCTION**

### **Early Promotion**

Berryessa Union School District provides programs of general education for kindergarten through eighth grade for all students enrolled in District classes. Students are expected to meet the outcomes for each subject as established by the Board of Trustees and as implemented at each school.

Most students satisfactorily complete the program requirements in one school year and are promoted to the next grade for the following school year. Students whose level of knowledge and skills significantly exceed the knowledge and skills of the grade to which they are assigned, may be considered for promotion to the next higher grade level. In addition, there may be other unique circumstances where an exception is in the best interest of the student.
