

INSTRUCTION

Updating the Berryessa Master Plan for School Improvement

The Berryessa Master Plan for School Improvement shall be updated every three years. The updating process shall start following the adoption of new District Goals. (Reference: Policy 2481)

The Superintendent or designee will review the updated District Goals and the Berryessa Master Plan for School Improvement with each School Improvement Council. Input from Council members and actions by each Council will be considered by the Superintendent or designee in developing proposed changes to the Berryessa Master Plan for School Improvement.

Each School Improvement Council will receive copies of proposed changes in District Policies, and Administrative Guidelines included in the Berryessa Master Plan for School Improvement. Before the policies are acted upon by the Board, Council members will have an opportunity to address the Board. The Superintendent or designee will conduct a hearing on Administrative Guidelines before they are implemented.

Policy
Adopted: February 8, 1979

Revised Policy
Adopted: July 28, 1983
