where the student	physically resides.		
P.O. Boxes are not accepted as a residence address.

All others you must provide:

When a student and his/her parents/guardians reside with a party who lives within the Berryessa Union School District's boundaries (rent a room, share a home, live with relative) a Family Affidavit must be completed. Parent/Guardian registering the student(s) must provide two (2) pieces of mail with their name and current address on it (government papers such as; tax papers, state assistance verification; a bill such as cell phone, credit card, medical insurance).

When only the student resides with a party (not the student's parents) who lives within the Berryessa Union School District's boundaries, a Caregiver's Affidavit must be completed.

Both of these affidavits require that the residence be on a full-time basis, Monday through Thursday and are required to be renewed annually.

Owner/Renter signing Family Affidavit must provide residence verification as stated above.

If, at any time, a question is raised about a student's residence, the District will undertake an investigation of the student's actual residence. If it is found that the situation is not as stated by the parents/guardians, the student will be **immediately un-enrolled** and then must enroll at their appropriate school or home district. (AR 5101.1) Berryessa Union School District reserves the right to verify residence. It is the policy of the Berryessa Union School District that all new students registering in the district and students who change their residence while attending school in the district provide proof of residence within the boundaries of the Berryessa Union School District (BUSD).

2. AGE VERIFICATION:

One of the following <u>ORIGINAL</u> official documents and <u>ONE PHOTOCOPY</u> must be brought for enrollment: (Ed. Code, Section 48000) containing the student's first and last name, date of birth, and gender.

California Law and Board Policy permit the enrollment in kindergarten of those children who will be 5 years old on/or before **September 1** of the current school year (Ed. Code, § 48000). Children entering Berryessa schools from another country will be assigned to their age appropriate grade level. If your child is transferring from another school, you may bring age verification from his/her previous school.

If your child will turn 5 years old between September 2 and December 2, he/she is eligible to enroll in the Transitional Kindergarten program. The availability of this program is dependent on state funding.

3. CALIFORNIA SCHOOL IMMUNIZATION RECORDS:

REPORT OF HEALTH EXAMINATION FOR SCHOOL ENTRY: (preferred for Kindergarten, required for 1st grade)

California state law requires children to have a health examination and submit a completed REPORT OF HEALTH EX-AMINATION FOR SCHOOL ENTRY (yellow form in this packet) 18 months prior to entering first grade. The examination can be given up to six months before entering kindergarten, but NOT BEFORE March 1st of this year in order to satisfy the 1st grade requirement. We recommend that parents submit the completed yellow form as part of the kindergarten registration packet. However, if your child received their exam prior to March 1st of this year, they will need to have another health exam prior to entering first grade. Please be sure to submit the yellow form to your child's school office prior to your child beginning the 1st grade.

Original Child's Immunization Record from Health Care Provider and 1 Copy

If your child is enrolling from a previous school in California, a verified copy of the "California School Immunization Record Form" may be brought from the previous school for enrollment.

During the first week of school, you will be receiving a detailed Attendance Agreement defining excused and unexcused absences and Berryessa attendance policy.

WHY YOUR CHILD NEEDS SHOTS:

The California School Immunization Law requires that children be up to date on their immunizations (shots) to attend school. Diseases like measles spread quickly, so children need to be protected before they enter. California schools are required to check immunization records for all new student admissions at Kindergarten or Transitional Kindergarten **through** 12th grade and all students advancing to 7th grade before entry.

THE LAW:

Health and Safety Code, Division 105, Part 2, Chapter 1, Sections 120325-120380; California Code of Regulations, Title 17, Division 1, Chapter 4, Subchapter 8, Sections 6000-6075

WHAT YOU WILL NEED FOR ADMISSION:

To attend school, your child's Immunization Record must show the date for each required shot above. If you do not have an Immunization Record, or your child has not received all required shots, call your doctor now for an appointment.

If a licensed physician determines a vaccine should not be given to your child because of medical reasons, submit a written statement from the physician for a **medical exemption** for the missing shot(s), including the duration of the medical exemption.

A personal beliefs exemption is no longer an option for entry into school; however, a valid personal beliefs exemption filed with a school before January 1, 2016 is valid until entry into the next grade span (7th through 12th grade). Valid personal beliefs exemptions may be transferred between schools in California. For complete details, visit ShotsforSchool.org.

You must also submit an immunization record for all required shots not exempted.

Questions? Visit ShotsForSchool.org or contact your local health department (bit.do/immunization).

Oral Health Assessment Form

California law (*Education Code* Section 49452.8) states your child must have a dental check-up by May 31 of his/her first year in public school. A California licensed dental professional operating within his scope of practice must perform the check-up and fill out Section 2 of this form. If your child had a dental check-up in the 12 months before he/she started school, ask your dentist to fill out Section 2. If you are unable to get a dental check-up for your child, fill out Section 3.

Return this form to the school no later than May 31 of your child's first school year.

Original to be kept in child's school record.

please call your school.

Information on the Oral Health Assessment/Waiver Request Form

To make sure your child is ready for school, California law, *Education Code* Section 49452.8, now requires that your child have an oral health assessment (dental check-up) by May 31 in either kindergarten or first grade, whichever is his or her first year in public school. Assessments that have happened within the 12 months before your child enters school also meet this requirement. The law specifies that the assessment must be done by a licensed dentist or other licensed or registered dental health professional.

Take the attached Oral Health Assessment/Waiver Request form to the dental office, as it will be needed for your child's check-up. If you cannot take your child for this required assessment, please indicate the reason for this in Section 3 of the form. You can get more copies of the necessary form at your child's school or online from the California Department of Education's Web site at http://www.cde.ca.gov/ls/he/hn/. California law requires schools to maintain the privacy of students' health information. Your child's identity will not be associated with any report produced as a result of this requirement.

The following resources will help you find a dentist and complete this requirement for your child:

- 1. Medi-Cal/Denti-Cal's toll-free number or Web site can help you to find a dentist who takes Denti-Cal: 1-800-322-6384; http://www.denti-cal.ca.gov. For help enrolling your child in Medi-Cal/Denti-Cal, contact your local social service agency at (fill in appropriate local contact information, available at http://www.dhs.ca.gov/mcs/medi-Calhome/CountyListing1.htm.)
- 2. Healthy Families' toll-free number or Web site can help you to find a dentist who takes Healthy Families insurance or to find out if your child can enroll in the program: 1-800-880-5305 or http://www.healthyfamilies.ca.gov/hfhome.asp.
- 3. For additional resources that may be helpful, contact the local public health department at (fill in appropriate local contact information, available at http://www.dhs.ca.gov/mcs/medi-calhome/CountyListing1.htm)

Remember, your child is not healthy and ready for school if he or she has poor dental health. Here is important advice to help your child stay healthy:

- Take your child to the dentist twice a year.
- Choose healthy foods for the entire family. Fresh foods are usually the healthiest foods.
- Brush teeth at least twice a day with toothpaste that contains fluoride.
- Limit candy and sweet drinks, such as punch or soda. Sweet drinks and candy contain a lot of sugar, which causes cavities and replaces important nutrients in your child's diet. Sweet drinks and candy also contribute to weight problems, which may lead to other diseases, such as diabetes. The less candy and sweet drinks, the better!

Baby teeth are very important. They are not just teeth that will fall out. Children need their teeth to eat properly, talk, smile, and feel good about themselves. Children with cavities may have difficulty eating, stop smiling, and have problems paying attention and learning at school. Tooth decay is an infection that does not heal and can be painful if left without treatment. If cavities are not treated, children can become sick enough to require emergency room treatment, and their adult teeth may be permanently damaged.

Many things influence a child's progress and success in school, including health. Children must be healthy to learn, and children with cavities are not healthy. Cavities are preventable, but they affect more children than any other chronic disease.

Risk Factors for Tuberculosis (TB) in Children

- Have clinical evidence or symptoms of TB
- Have a family member or contacts with history of confirmed or suspected TB
- Are in foreign-born families from TB endemic countries (including countries in Africa, Asia, Latin America or Eastern Europe)
- Travel to countries with high rate of TB
- Contact with individual(s) with a positive TB test
- Abnormalities on chest X-ray suggestive of TB
- Adopted from any high-risk area or live in out-ofhome placements

- Live with an adult who has been incarcerated in the last five years
- Live among or frequently exposed to individuals who are homeless, migrant farm workers, residents of nursing homes, or users of street drugs
- Drink raw milk or eat unpasteurized cheese (i.e. queso fresco or unpasteurized cheese)
- Have, or are suspected to have, HIV infection or live with an adult with HIV seropositivity. See below for testing methods in children with HIV or other immunocompromised conditions.

Testing Methods

A Mantoux tuberculin skin test (TST) or an Interferon Gamma Release Assay (IGRA) (for children aged 4 and older) should be used to test those at increased risk. A TST of ≥10mm is considered positive. If a child has had contact with someone with active TB (yes to question 3 on reverse) then TST ≥5mm is considered positive.

Screening should be performed by CXR in addition to a TST/IGRA (consider doing both) and symptom review in HIV infected or suspected HIV, other immunocompromised conditions or if a child is taking immunosuppressive medications such as prednisone or TNF-alpha antagonists.

Referral, Treatment, and Follow-up of Children with Positive TB Tests

- All children with a positive TST or IGRA result should have a medical evaluation, including a chest X-ray.
- Report any confirmed or suspected case of TB disease to the TB Control Program within 1 day, including any child with an abnormal chest X-ray.
- If TB disease is not found, treat children and adolescents with a positive TST or IGRA for latent TB infection (LTBI).
- Isoniazid (INH) is the drug of choice for the treatment of LTBI in children and adolescents. The length of treatment is 9 months with daily dosing: 10-15mg/kg (maximum 300 mg).
- For management and treatment guidelines for TB or LTBI, go to: www.cdc.gov/tb or contact the TB Control Program at (408) 885-4214.
