School Accountability Report Card

Reported Using Data from the 2015-16 School Year

Published During 2016-17

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2016-17)

At Brooktree, we know how important it is that students, parents, teachers and staff work together to ensure each student's success. We encourage and enjoy building healthy, meaningful relationships between our students, the school and our teachers. This year we will focus on developing ourselves as responsible, respectful and safe Brooktree community members and learners. We appreciate and encourage your support as we continue to foster the relationship between home and school.

Providing a safe and nurturing environment with a strong home to school relationship provided the foundation for our students to learn, grow and flourish in academics and in their lives socially and emotionally. One important way you can assist us in strengthening our commitment to build responsible, respectful and safe students is to support and follow the directions provided by our Safety Patrol students. It is important that as members of the Brooktree Neighborhood, we respect our community by being responsible neighbors to those who live around our school's campus.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements (Most Recent Year)

General: The district places a strong emphasis on ensuring that all schools are safe, clean, environmentally friendly, mechanically functional and inviting for students, staff members, and the community. To assist in this effort, the district utilizes Facility Inspection Tool (FIT) developed by the State of California OPSC and local operations department developed inspection survey methods to keep facilities in compliance with all federal and state health and safety regulations. The district regularly inspects and reviews the condition of the school facilities and surrounding grounds. The district places the highest priority on those safeguards that impact the fire, life and safety protection of the students, staff, and school buildings. Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

Age of School Buildings: Brooktree was opened in 1975. This school has 22 regular classrooms, a multipurpose room, a library, and an administration building. In addition to the main building, there are six portable classrooms that have been added to accommodate class size reduction and instructional programs for the Santa Clara County Office of Education.

Maintenance and Repair: District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order system process is used to ensure efficient service and highest priority is given to emergency repairs. At the time of publication, 100% of the school’s restrooms on campus were in good working order. This site is also scheduled to have interior and exterior lighting upgrades completed through Prop. 39 initiatives in identified areas throughout the campus.

Cleaning Process and Schedule: The district has developed cleaning standards and schedules for all schools in the district. A summary of these standards and schedules is available at the school or the Maintenance & Operations office. The principal, with the guidance of the maintenance supervisor works daily with the custodial team to ensure that the cleaning standards are met, and that classrooms, restrooms, and campus grounds are kept clean, safe, and well-maintained.

Modernization Projects: During the 2016-17 school year, local bond funds (Measure L) will be used to repave and stripe identified surface areas throughout the campus. Also included is IT Cabling upgrades with exterior wireless access points. The work will be completed prior to the start of the 2017-18 school year.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the Other Pupil Outcomes State Priority (Priority 8):

- Pupil outcomes in the subject areas of physical education.

California Physical Fitness Test Results (School Year 2015-16)

Grade Level	Percent of Students Meeting Fitness Standards

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement (School Year 2016-17)

We invite parents to participate on our School Site Council, which approves plans to improve student achievement and makes decisions about the school budget. In addition, our PTA works with the school to plan fundraisers, community activities and parent education events. Our English Learners Advisory Committee provides information for parents of ELL students. Teachers encourage parents to volunteer in the classrooms or to become volunteer listeners. At our Curriculum Night in the fall is a time to learn more about what we teach to students of each grade level. Children show case their academic accomplishments at our spring open house and science fair.

State Priority: School Climate

The SARC provides the following information relevant to the School Climate State Priority (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

Suspensions and Expulsions

Rate	School			District			State

Expulsions	0.0	0.0	0.4	0.2	0.2	0.1	0.1	0.1	0.1

School Safety Plan (School Year 2016-17)

We update our school safety plan each year, conduct monthly fire and earthquake drills, and require participation in an annual school wide disaster simulation. We provide supervision on the playground during lunch and recess, and oversee student-crossing guards before and after school. We use the school newsletter to alert parents about upcoming events, safety and traffic concerns, and hold assemblies to educate students about health, watershed, safety and taking care of one another.

Types of Services Funded (Fiscal Year 2015-16)

Individual school sites offer Supplemental Instruction (SI) to students who are below grade level. It is up to each individual school site to identify the students who need extra support based upon district benchmarks or teacher recommendations. Each school site selects certificated and classified staff to teach these SI classes, usually after school (1 – 3 days a week). Each school also identifies the curriculum that will be used. The majority of the school sites select computer-based programs where students can work independently at their current academic level. Some schools provide this time to receive help on their homework.

Schools that are identified as Program Improvement Year 2 schools offer Supplemental Education Services (SES). Students in the 3rd – 8th grade are identified at the district level based on their SBAC and benchmark tests. Letters are sent out to students who qualify for the program. The district contracts out through SES providers to offer the extra tutoring assistance.

Teacher and Administrative Salaries (Fiscal Year 2014-15)

Percent of Budget for Administrative Salaries	7%	5%

For detailed information on salaries, see the CDE Certificated Salaries & Benefits Web page at <http://www.cde.ca.gov/ds/fd/cs/>.

Professional Development (Most Recent Three Years)

Professional Development this school year occurred on many different levels – before school started (Summer of 2016) and ongoing throughout the 2016 – 2017 school year. The district office working with our site principals worked on the scope/sequence of the professional development sessions. The work was also based on student data produced from benchmark tests, CELDT, and SBAC data, as well as teacher feedback.

At the beginning of the school year, all certificated staff participated in two days of professional development aligned with the subjects they teach. K-2 teachers received training on the Benchmark Assessment System and the Heinemann Writing Units of Study. Grade 3-5 teachers received training on the Heinemann Writing Units of study. Special Education staff and middle school teachers received specialized training related to new curriculum and teachers needs in the area of their specialty.

During the school year teachers were provided with additional release days to receive training on newly adopted ELA materials (up to 3 times during the year). Each release day provided collaborative planning time during which teachers prepared to teach a writing unit. Middle School science teachers were released three times during the school year to develop the integrated approach to teaching science in 6th and 7th grade. They also received training on 3 programs that were piloted in order to provide NGSS align materials. 3 Curriculum Leadership Teams were released 3-5 days during the school year to receive professional development, created resources such as curriculum maps and benchmarks, and prepare site professional development in math, science, and ELA/ELD.

Throughout the school year, we offered monthly professional development sessions in which all the teachers participated (1.5 hours on early release Thursday afternoons). The topics were chosen by principals and district office administrators. The focus was on building teachers’ capacity for shared leadership to improve teaching and learning in math, NGSS, Technology and ELA/ELD. Teacher leaders from each site provided the professional development which was developed collaboratively with Curriculum and Instruction staff and focused on understanding the new California frameworks.

The Sobrato Early Academic Language (SEAL) program was implemented at six of our ten elementary schools in grades TK-3. The schools included Cherrywood, Laneview, and Summerdale where TK-3 teachers were trained; and Brooktree, Toyon, and Vinci Park, where kindergarten and first grade teachers were trained. Teachers received initial training in August 2016. They also received 3 2-day Professional Development sessions throughout the school year. Each grade level also received planning time after each 2-day PD session. The PD sessions were delivered by a contract through SEAL. Our three SEAL coaches provided the follow up planning PD sessions. Teachers were released from their classrooms for all of these PD days.
