

INSTRUCTION**Student Study Teams**

In order to consider the needs of students having academic, attendance, behavioral or other difficulties affecting academic progress, the District will establish a Student Study Team (SST) at each school. The Student Study Team is a unified group of site level staff who join together in a cooperative, problem-solving process to reach a shared goal of student success.

The SST will investigate the problems of students and develop plans to modify the learning environment and students' behavior in order for the student to be successful. It is expected that the SST will improve communications within the school and support classroom teachers.

The SST will also be responsible for the process to identify any student who is disabled under Section 504. One or more members of the SST will participate in the completion of the Section 504 Educational Plan.
