

## **INTERNAL BOARD POLICIES**

### **General Policy Statement**

The Board believes that policy positions about its own operations as included in this series are needed for the following reasons:

1. To acquaint the residents of our School District, School District employees, and pupils with the role and purposes of the Board as defined by law, the Superintendent of Public Instruction, the State Board of Education, and the Board's own intent.
2. To point out the opportunities which it enjoys and the constraints which it accepts in serving the cause of education in this School District.
3. To encourage thoughtful and considerate support from residents, employees, and pupils for often complex problems which the Board faces.

Policy

Adopted: January 10, 1974
