

PERSONNEL: CERTIFICATED

Extended Work Year

Certificated employees whose work year for their regular assignment is extended beyond the regular work year shall be compensated at a current salary per diem rate for each additional day served. Summer school assignments, temporary administrative assignment, intersession and special summer projects, such as curriculum development, etc., shall not fall under the provisions of this policy.

A current salary rate per diem for a given year is determined by dividing the contract amount for that given year by the number of days contained in the regular work year.

The regular work year for all certificated personnel compensated on the basis of the regular salary schedule for teachers shall be defined as the number of work days indicated in the calendar for a given year.

Policy Adopted: October 9, 1975
Revised Policy Adopted: July 28, 1983
